(845) 905-2690 | jad3772@rit.edu | www.linkedin.com/in/joshua-digugno | <https://people.rit.edu/jad3772/jad/Resume/>

Objective: Seeking a game design or programming co-op using my skills to grow as a developer.

SKILLS:

Programming: HTML, CSS, JavaScript, C#, C++, Unreal Blueprints, SQL, Python

Software: Visual Studio, Unity, Unreal Engine, Godot, Github, Maya, Perforce, Tableau, Jupyter

PROJECTS:

1 Month, 1 Game Challenge(Solo Personal Project): Jan 2024 - June 2024

- Conceptualized and developed a series of unique games, meeting strict one-month deadlines.
- Conducted in-depth research to enhance understanding of game design principles, mechanics, and audience engagement.
- Successfully created a classic Pac-Man clone, an endless runner, and an educational game tailored for 3-5 year olds using Unity and C#.

Intel Data Center & The Recording Academy(Solo Final Academic Projects): Summer 2024

- Conducted analysis of energy availability and consumption to support the selection of the optimal location for a new data center for Intel using SQL and Tableau.
- Used real website data for [grammy.com](https://www.grammy.com) to meet business goals and provide growth recommendations through Python, Pandas, NumPy, and Plotly.

Worldbuilding Based on Historical Worlds: Winter 2023

- Participated in a study abroad program in Spain, exploring the rich history and culture of five cities: Madrid, Seville, Córdoba, Granada, and Toledo.
- Collaborated with a team of 21 peers to create a detailed, fictional world known as Mahka Nata inspired by Spain's historical and cultural legacy.

WORK EXPERIENCE:

ChangelingVR

Technical Artist, Developer

Spring 2024

- Developed engaging gameplay mechanics, creating puzzles and obstacles to challenge players operating in Unreal Engine and Blueprints while crafting high-quality 3D models with Maya.
- Utilized Perforce for version control, ensuring seamless collaboration with ~20 members.

TESOL/ESL Tutor

September 2021 - June 2022

Tutor

- Successfully acquired a TESOL diploma after completion of the TESOL course.
- Facilitated an excellent work and teaching environment about pronunciation, U.S. essay formats, English grammar to multiple tutees to multiple international students.

EDUCATION:

Rochester Institute of Technology (RIT), Rochester, NY | Avg GPA: 3.64 Expected Winter 2025

Bachelor of Science, Game Design and Development, Minor in Creative Writing

Related Courses: Intro to Web Tech, Physics, 2D/3D Animation and Asset Prod, Game Design and Dev 1 and 2, Rich Media Dev Web App, DSA1, DSA2, World Building, Level Design I

Global Career Accelerator: Coding For Data

May 2024 - July 2024

SQL & Python Trainee

- Gained skills in SQL, Python, and Python libraries to extract, clean and manipulate data.
- Communicated results of data analysis through visualizations like Tableau and Plotly.
- Collaborated with a global team to complete tasks and procure a deeper understanding of data.
